THE MISSOURI SCHOOL OF MINES AND METALLURGY
Rolla • Missouri

Director Chedsey frequently talks to the student body on topics of vital interest to them and the school.

The Director's Residence is on the southeast corner of the campus facing south.

We Honor . . .

Three years ago the Directorship of the Missouri School of Mines and Metallurgy was taken over by a man well fitted for the position, Professor William Reuel Chedsey. Mr. Chedsey, a mining engineer by profession, had worked for several years in the mineral industry, and had taught many years at the Pennsylvania State College. His outstanding ability in his profession is reflected by his holding the Chairmanship of the Educational Division of the American Institute of Mining and Metallurgical Engineers. Two years ago, the Colorado School of Mines, his Alma Mater, conferred upon him the degree, Doctor of Engineering.

During his three years here, Dr. Chedsey's capable handling of his office and his pleasing personality have earned him the respect of the faculty and the devotion of the student body. As an expression of the feeling of the student body, this book, the 1940 ROLLAMO, is dedicated to Dr. Chedsey, with the best wishes of the ROLLAMO staff and the entire student body.

In Memory of

Horace Thorpe Mann

B.S. in Mining, M.S., E.M., Sc.D.

The Missouri School of Mines lost one of its most prominent and active alumni when on February 8, 1940 Dr. H. T. Mann, head of the Petroleum Department, passed away. Ill since February 1, Dr. Mann succumbed to a heart ailment at the age of 58.

The present students of the school were not privileged to know Dr. Mann very long, since he had just recently returned to the campus in the roll of instructor. However, in that short time he created many lasting friends among the students, who will remember him for his interesting lectures and genial personality.

Dr. Mann was a graduate of the class of 1908, receiving his degree in Mining Engineering in that year and his master's degree in 1909. After graduation he was appointed to the M. S. M. faculty and from 1914 to 1920 served as head of the department of metallurgy here. After professional work in the west and a period of teaching at the Montana School of Mines, he entered the Graduate School of the Massachusetts Institute of Technology and received his doctor's degree in 1924. He remained at M. I. T. until he returned to Rolla last fall to head the Petroleum Department here.

As a scientist, Dr. Mann was one of the best versed men in his field, which he later extended to petroleum engineering. He was editor of the petroleum section of Webster's International Dictionary, and Metallurgical Engineering.

While a student at M. S. M. Dr. Mann was the recipient of many honors, among which was a membership in Tau Beta Pi, national honorary engineering fraternity, of which he was a charter member. He was President of the Alpha Kappa Chapter of the Pi Kappa Alpha fraternity when in his senior year. In every way an outstanding alumnus, his character and work serve as representative examples of what this school produces.

BOOK ONE

THE COLLEGE

The Missouri School of Mines initiates the students into a basic scientific course in engineering and concentrates its facilities with the ulterior aim to produce a man well grounded in engineering knowledge and inculcated with a humanitarian objective.

The humanitarian aspect is the driving force behind the engineer, as he puts forth his efforts toward the development of the resources of the world for the good of all humankind.

M. S. M., as one of the highest ranking engineering schools of the country, gives the student a memorable college life and an objective to be followed throughout his lifetime.

THE COLLEGE

WILLIAM REUEL CHEDSEY, *Director*
E.M., Doctor of Engineering.

HENRY HORTON ARMSBY, *Registrar*
Student Adviser and Secretary to the Faculty.
B.S., C.E.

Administration

Just as a great ship needs a captain and many other officers, so a school such as ours needs a director to guide it on its way through the years. Director Chedsey and the faculty have done a creditable job in keeping the reputation of M. S. M. as one of the greatest of engineering schools. Enrollment has steadily increased and she should continue to produce superior engineers in the years to come.

Director Chedsey at his desk.

BARLEY, J. W., A.B., A.M., Ph.D., Professor of English.
 BELL, W. C., M.A., Ph.D., Instructor in Geology.
 BERTRAM, W. B., LL.B., Instructor in Military Science and Tactics.
 BLACK, C. H., B.S., Asst. Professor of Drawing.
 BOYD, C. E., A.B., A.M., Instructor in English.
 BUTLER, J. B., B.S. in C. E., B.S. in Educ., C.E., M.S. in C. E., Prof. of Civil Engineering.
 CAGG, M. H., A.B., A.M., Asst. Professor of English.
 CARLTON, E. W., B.S. in M.E., B.S. in C.E., M.S., C.E., Prof. of Structural Engineering.
 CARROLLA, R. R., B.S. in C.E., Asst. Instructor in Mechanics.
 CLAYTON, C. Y., B.S., Met. Engr., Prof. of Met. Engr. and Ore Dressing.
 CONRAD, F. H., B.S. in Chem. E., Ph.D., Associate Prof. of Chem. Engr.
 CRAWFORD, I. C., JR., B.S. in C.E., M.S. in C.E., Instructor in Civil Engr.
 DAY, T. G., B.A., M.A., Ph.D., Asst. Prof. of Organic Chem.
 DECKER, E. E., B.S. in Mining, Instructor in Civil Engr.
 DENNIE, F. E., B.S., C.E., Associate Professor of Mathematics.
 EIKELBERGER, W. R., A.B., M.S., Instructor in Mathematics.

ELLISON, S., A.B., M.A., Instructor in Geology.
 ERKILETIAN, D. H., Jr., A.B., M.A., Instructor in Mathematics.
 FARNHAM, F. C., A.B., M. Sc., Asst. Prof. of Physics and Geophysics.
 FARQUHARSON, D., B.S., Business Manager and Secretary of Executive Committee.
 FEIND, E. E., B.S., M.D., Student Health Director.
 FISHER, D. F., JR., B.S., M.S. in Mech. Engr., Instructor in Mechanics.
 FORBES, C. R., B.S., E.M., Professor of Mining.
 FRAME, F. H., A.B., E.E., Professor of Electrical Engr.
 GEVECKER, V. A. C., B.S., M.S., Instructor in Civil Engineering.
 GOODHUE, E. A., A.B., B.S., M.S., Assistant Professor of Mathematics.
 GORDON, L. C., Professor of Military Science and Tactics.
 GRAWE, O. R., A.B., M.S., Ph.D., Associate Professor of Mineralogy.
 GUINNUP, G. R., B.S. in Mech. Engr., M.S. in Mech. Engr., Instructor in Mechanical Engineering.
 HANLEY, H. R., B.S. in Mine Engr., Met. Engr. Professor of Metallurgy.
 HENDERSON, C. E., Ceramic Engineer, Instructor in Ceramic Engineering.
 HENNING, O. A., A.B., A.M., Professor of Modern Languages.
 HEROLD, P. G., B. Cer. Engr., M.S., Ph. D., Asst. Professor of Ceramics and Acting Head of Department.
 HINSCH, V. B., B.S., E.M., Professor of Mathematics.

Campus Personalities

RAKASKAS — Swimming captain, papa of Sigma Pi. CARR—Joe College Carr. President of Pi K A. CHEDSEY—A.I.M.M.E. ram-rod.

COWAN — "Miserable Miner" Editor.

LEBER—No. 1 smart man.

STEWART—Tau Bet head.

DENNIE—"ROLLAMO" boss, St. Pat's head.

DOWLING — "ROLLAMO" money man.

ALFORD— Vice-Pres. of
honorary frats.

TIEDE— Ex-sailor, Stu-
dent Council pres.

OLCOTT—Shamrock
Club politician.

PAYNE—Chief of Boar's
Nest.

KAMPER— Probation
Metallurgist. B. B.
Captain.

RIEKE—Flying Senior
prexy.

KELLY—Little man who
was there—in every-
thing.

SPAFFORD— Blue Key
President. M. I. A. A.
Center.

LADD—Captain of pig
skin boys, M.I.A.A.
Back.

Seniors of 1940

The R.O.T.C. at Rolla

The Engineer unit of the R.O.T.C. was established at the Missouri School of Mines in March, 1919, its primary mission being the procurement and training of young men who will enter the reserves of the Army of the United States to serve in case of national emergency as officers in that branch of the service to which they are best adapted.

MAJOR GORDON and LT. POWERS

Last spring, due to the increased enrollment in the R.O.T.C., the organization was changed from that of a Battalion to a Regiment. At present there are about 400 students in the basic courses and 60 in the advanced course. Twenty three of the advanced corps will receive their commissions in May.

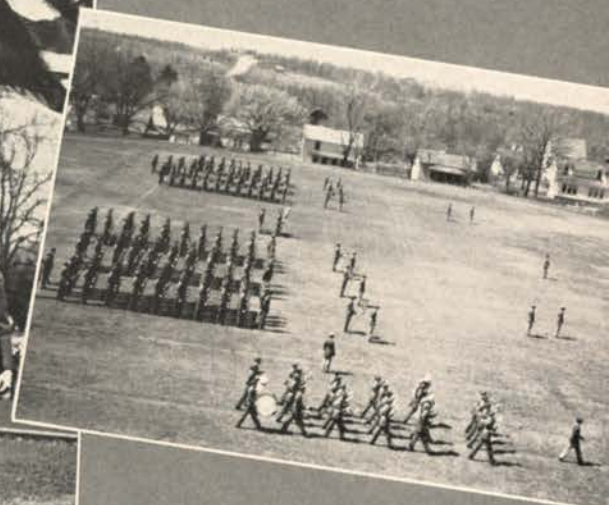

The Cadet Colonel for this year has been Walter P. Leber.

BOOK TWO

Sports have a definite place at M. S. M. as they offer much needed recreation and welcome relaxation from a strenuous scholastic schedule.

Varsity sports include football, track, tennis, swimming, and golf. Each year the Miners send teams of which it might well be proud into the M. F. A. A. contests, for the Miner teams are noted for their hard playing, aggressiveness, and good sportsmanship.

An extensive intramural program, which provides opportunity for every student to participate, is carried on by the fraternities and independent organizations.

ATHLETICS

Gridmen

Have Successful Season

With the opening of school in September some sixty aspirants answered the practice call of head coach Bullman and his capable assistant Percy Gill. The outlook was rather promising with 25 veterans of the previous season's second-place team reporting.

On the whole, as the season progressed the Silver and Gold upheld their early season promises, winning five games against four losses and ending in third place in the M.I.A.A. conference. The team scored a total of 111 points to 114 chalked up against them.

Four of the factors contributing to the Miner successes were seniors Ladd, Spafford, Taylor and Klug. Each was a star in his own right and started almost every game. They were the only members of the class of '40 on the squad.

Head coach Gale Bullman (top) and his assistant Percy Gill have rounded out their third year at M. S. M. after coming here from Washington University. During this period Bullman coached teams have always finished in the upper bracket of the conference standings. Percy Gill, calm and reserved, makes a perfect assistant for nervous and energetic Bullman.

Action in the Home-coming game, both in the stands and on the field.

Left to right; back row—Elsea, Spafford, Kallmeyer, Henley, Svejkosky, Johnson, Bennetsen, Strawn, Kromka, Falkingham, Tatalovich.

Second from back row—Klug, Glover, Veal, Hammann, Walker, Blauvelt, Mazzoni, Krueger, Domjanovich, Corneau, Durphy.

Second from front row—Stephens, Bruce, Koerner, Rogers, Cook, Ladd, Taylor, Nevins, Nicola, Cunningham.

Front row—Kiburz, Sueme, Schumacher, Rose, Hancock, Catanzaro, Eads, Kane, Radcliffe.

Harley Ladd, captain and nucleus of the Miner's 1939 team. Harley was the biggest ground gainer the Miners have seen in several years. He was honored for two years on the All-M.I.A.A. team.

Springfield's cheerleader leads the Miners in a yell. Action shots of the Maryville game.

JOE SPAFFORD

Never a bad center in 4 years of collegiate football is Joe's enviable record. He kept his record clean in 3 games played in the mud this year and well deserved his all M.I.A.A. ranking for two years in a row.

MIKE CANTANZARO

"Iron Mike" was outstanding defensively at his fullback post and if his knee heals up, he and Cook will have a real battle for the starting positions.

EUGENE HAMMANN

Here is a guy who really enjoyed playing football at tackle. His spirit and hard playing are felt all along the line when he is in the game.

HERBERT STOCKTON

In his first year of varsity football, "Herb" filled the gap left by injured ends in fine style. He played his best game against Warrensburg, where his downfield blocking stood out.

RALPH EADS

The only reason Ralph didn't star was because Cunningham, Taylor and Ladd had more experience. He was the one bright spot against Springfield and will do a good portion of the passing and running in the next three years.

NELSON KOERNER

"Nels" speed helped him lead interference from his guard position. A bulwark on defense, Nels should reach his peak next year.

JOE STRAWHUN

"Big Joe's" strength helped him to ward off blockers and made him a tough man to take out of plays. He's another end who'll be back.

CLYDE DURPHY

"Durph" was Joe Spafford's understudy; so did not see too much action. He played steady ball when given his chance and should be our regular center next fall.

ROBERT BRUCE

"Bob" transferred to M. S. M. from Oklahoma Military Academy and provided much needed strength at end. He excelled on defense and his heads up football was most notable against Washington U.

MATHEW DOMJANOVICH

"Matz" rode to the heights by kicking Cape dizzy on a muddy field. He was probably the most improved lineman of the year and may fight his way into a starting guard position next fall.

KEITH COOK

Keith was our starting fullback and ace passer. Two of his passes went for touchdowns and many went for long gains.

ARTHUR SCHUMACHER

"Little Art" was probably the most versatile back on the Miner team last year. He ran from quarterback, right and left halfback, and called signals. He was handicapped by injuries, but watch his smoke in 1940.

Bruce

Domjanovich

Cook

Schumacher

Rogers

Nicola

Klug

Stephens

Spafford

FRANKLIN ROGERS

Frank held down one of the guard positions in fine style. He did a swell job of punting after Cunningham's injury and received mention on several all-conference teams.

NICK NICOLA

Nick's "end-around" run in the closing minutes helped to beat Warrensburg. He should see lots of action next fall.

ROBERT KLUG

Bob finished his football career against Washington U. Though light for a tackle, he more than made up for it in aggressiveness.

JAMES STEPHENS

With 228 pounds behind him, "Steve" was a hard man to take out of plays. He will be a handy man to have around next year.

FRED HANCOCK

Here's a transfer from Kenyon College who really came in handy. A smart, hard-blocking quarterback who left many would-be tacklers "cold" when he put his head down on punt returns.

EUGENE VEALE

Another of our swell array of guards. Though short of stature, Gene is wide and mobile enough to cause enemy backs plenty of trouble.

OTIS TAYLOR

The fastest man on the squad and one of the best passers. Though handicapped by injuries "Ote" closed his 4 years of football with a swell game against Washington U.

ALEXANDER TATALOVICH

"Axel" was the hardest tackler on the team, as many opposing backs will verify. "Ax" will be around for some time, so should bear watching at tackle.

DICK CUNNINGHAM

Dick started out like a whirlwind this season and ran wild against Warrensburg and Arkansas State only to receive a severe ankle injury against Springfield. That was his last game of 1939 but he should be back at his regular left halfback post next year.

CLIFFORD CORNEAU

Had the inactive job of relieving Capt. Ladd this year, but showed that he had what it takes with some swell running against Arkansas A. & M.

BOB NEVINS

When Bob was out with an injury during the first of the season he turned to sports announcing. However, when his shoulder healed he resumed active competition. Passes seem to have an affinity for Bob's sticky fingers. He never drops one that he can reach.

EDWARD KROMKA

Ed was probably our best tackle and should make all-conference next year. Ed has a heart for football and is a swell blocker.

JAMES KIESLER

Jim had the position of trainer with the team this year after having starred for four years on Miner teams.

The M.S.M. Basketball Season

The M. I. A. A. Basketball Conference is known as one of the strongest in the Mid-West and competition this year was unusually keen. This helps explain the un-impressive record made by the Miners despite the fact that Percy Gill placed a well-balanced team on the floor.

Most outstanding for the Miner cagers was undoubtedly Bob Bruce, who led the conference in scoring and was the first Miner to be chosen on the all-conference team in many years.

Lack of experienced reserves seriously handicapped the team. Many of their games were lost late in the second half after the regulars had either fouled out or were too tired to continue at top speed. A brief resume of the season with scores of both teams, our leading scorers, and high lights of the games might appear as follows:

M. S. M. 55 Central Wesleyan 21

We're off, with Bruce getting 14!

M. S. M. 26 St. Louis U. 37

Nobody "hot." Bruce 10.

M. S. M. 29 Washington 34

It was a Miner victory until the last four minutes. Cook led with 12.

M. S. M. 22 Westminster 32

Rather embarrassing! Kamper got 8.

M. S. M. 26 Maryville 44

The "class" of the M. I. A. A. goes to work! Cook hooped 10 but Hull of the Champs got 15.

M. S. M. 42 Kirksville 31

Here was the game of the year for the Miners. Watts led with 16 points in the second half, closely followed by Bruce and Nesley. Hopes rise.

M. S. M. 20 Springfield 42

Poor officials and a rough game helped our defeat. Hopes fail.

Jump ball and a basket for the Miners in the Maryville game.

M. S. M. 37 St. Louis 33
 Bruce with 16 and Watts with 10 helped beat the Bills in a thriller.
 M. S. M. 29 Cape 42
 Not so hot! Bruce 9, Watts 8.
 M. S. M. 24 Warrensburg 40
 'Nuf' said.
 M. S. M. 25 Maryville 39
 Maryville again but Bruce bagged 16.
 M. S. M. 28 Washington U. 39
 A real game until late. Watts made 13.
 M. S. M. 34 Cape 52
 Miners were no match for the Cape sharp-shooting. Watts 12.
 M. S. M. 29 Springfield 35
 Roughest game of the year. Carroll suffered a broken wrist and Watts was carried from the court after crashing into a wall.
 M. S. M. 31 Kirksville 38
 Nothing to say. Bruce got 10.
 M. S. M. 37 Warrensburg 46
 Miners put up a thrilling battle for Finnish Relief. With three minutes to go it was anybody's ball game, Bruce finished with 14 points to lead the conference.
 Letters were awarded to Watts, Kamper, Nesley, Cook, Carroll, Wampler, and Bruce.

Top row: Grady, Nev-
 ins, Strawhun; Timber-
 man.

Middle row: Romine,
 Nesley, Burke, Lunday,
 Main.

Bottom row: Cook,
 Bruce, Wampler, Kamper,
 Watts, Carroll.

Hellstern and Spinner go over the highs
in a dead heat.

Track

As the Rollamo goes to press the track team possesses the rather disappointing record of have lost dual meets to Cape Girardeau, Westminster, and Washington University against a single win over Springfield. The brightest spot in their record was placing a strong third in the M. I. A. A. conference indoor meet at Columbia.

The team this year was not particularly strong in the field events but it was formidable in the dashes and the middle and long distance events.

Point winners in the M. I. A. A. meet included Taylor, Ladd, Eads, Fort, N. Tucker, and Ga Nun. The crack medley relay team attended the Kansas Relays and came in fifth. Members of the relay team were Ga Nun, Fort, Pierce, and N. Tucker.

Taylor was the highest individual point winner and took part in the 100 yard dash, the broad jump, and the 220.

The entire track team personnel includes the following:

Dashes—Corneau, Taylor, Ladd, Jones and Hellstern.

Hurdles—Spinner, Corneau, Hellstern.

Middle distances—Eads, Pierce, Fort, Ga Nun, Cutler, and Van Pool.

Distances—Fort, Norman and Armin Tucker.

Shot Put—Ladd, Taylor, and Leone.

Discus—Strawhun and Leone.

Pole Vault—Haas and Spinner.

Javelin—Bouchier and Ladd.

Broad Jump—Taylor, Corneau, Strawhun,

High Jump—Burgess, Spinner, and Ladd.

The start of the mile

"Got a better one"

Strawhun again in the broad jump

Taylor breaks the tape in the 100

A false start in the 440

Burgess makes his jump

Corneau slips the baton to Ga Nun

Strawhun knocks off the bar

Haas has no trouble on this vault

Minor Sports at M. S. M.

Tennis

This season the tennis team looked stronger than it has for the past eight years. Leber, Silhavy, and McKee, regulars of last year's team, were back, and some promising material from the freshmen class appeared. As the Rollamo went to press, the squad had high hopes of repeating last year's trick of winning second place in the M. I. A. A. conference. Henderson was the outstanding player early in the season, and dropped only one match, Washington U. McKee was captain of the squad.

Swimming

The Miner swimming team, coached by Silverman, went undefeated this season, going through their schedule with five wins and one tie.

In the meet with Jefferson City, the Silver and Gold took five first places. The return meet with Jefferson City Bears turned out to be a 33-33 tie. At Kemper, Neumeyer broke the pool record for the 100 yd. free style.

Victorious over Warrensburg, the Miners went on to win every event against Westminster and set three new records. The return engagement with Westminster saw Hadley do the 100 yd. back stroke in 1:13.2, the fastest time that ever has been recorded for the M. S. M. varsity.

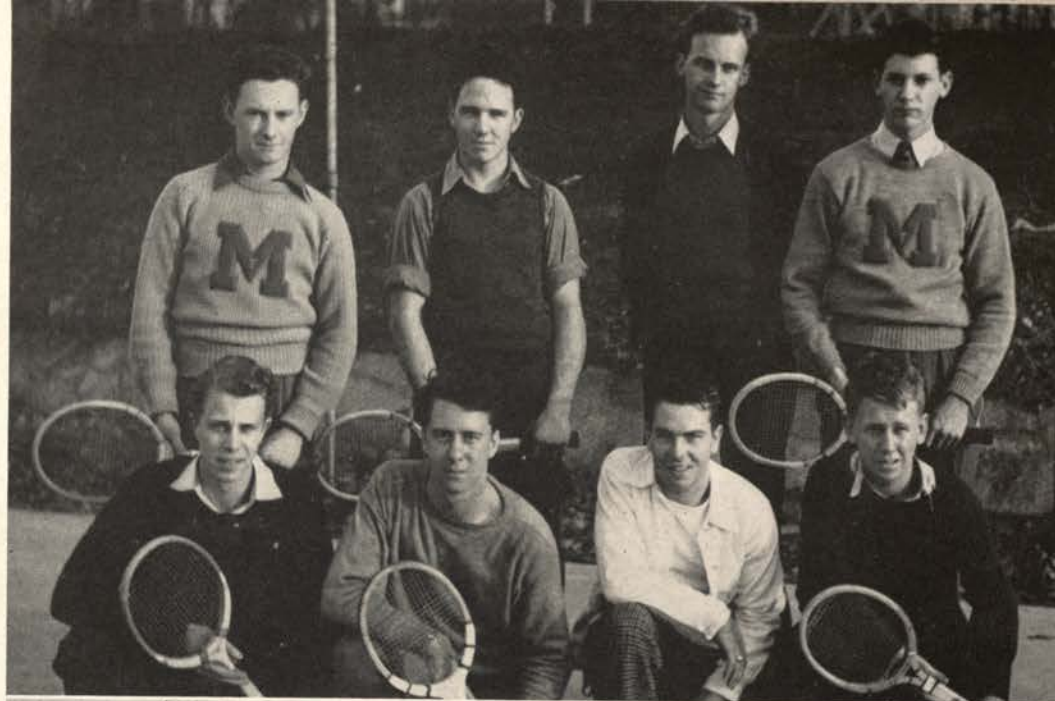

Rifle

After shooting with some of the best colleges in the United States, the rifle team has to its credit 23 victories and a single defeat which was at the hands of Maine University. In the corps area intercollegiate match the Miner team succeeded in placing sixth among the 28 colleges participating.

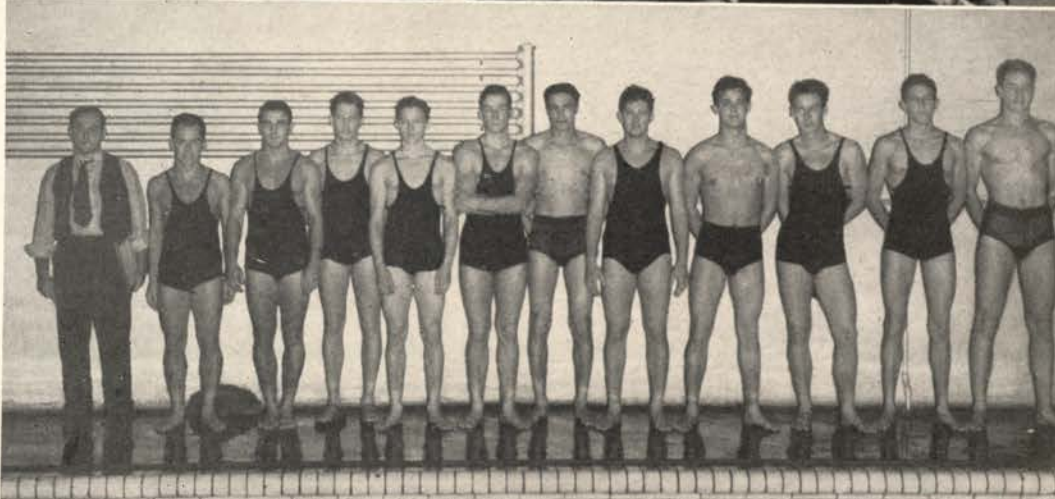

The following universities and colleges were defeated by the Miners: Rose Polytech., Clarkson Tech., W. Virginia U., Virginia Polytech., Harris Teachers, U. of Alabama, U. of Tennessee, Yale University, Coe College, U. of Michigan, U. of Wisconsin, Kemper Military Academy, Alabama Polytech., U. of Nebraska, Iowa State U., Kansas U., John Hopkins, Va., Military Academy, Georgia Tech., and Ohio State.

Standing: McKee, Radcliffe,
Heddell, Leber.

Sitting: Fleischli, Mooney,
Silhavy, Maupin.

Left to right: Silverman
(coach), Burberry, Hancock,
Berndt, Keller, Cochran, Wach-
ter, Rakaskas, Bierman, Brackett,
Hadley, Neumayer.

Standing: Mack, Zanzie, Fick,
Elliott, Alsmeyer.

Sitting: Ullrich, Martin, Bur-
berry, Fields, Lindberg.

The Golf Team

*Left to right: Watts, Beard,
Timberman, Clarkson.*

Winning easily at the M. I. A. A. conference meet last May, the Miners ended the 1939 golf season undefeated and earned their second golf crown within as many years. Floyd Watts took individual honors.

Starting this spring, the Miners, due to lack of practice, suffered their first defeat in three years when they bowed to Springfield and Cape. However, the team returned to trounce Westminster, Washington University and, in a return match, defeated the Springfield Teachers. With this victory over Springfield, the Miners with Watts, Clarkson, Beard and Timberman are now favored to win the conference meet for the third consecutive time.

As we go to press the Miners still have four games scheduled, so that, in all probability they will end their season with a good percentage of wins over losses.

Intramural Sports

Wright uncorks a toss in the general direction of the horse-shoe pit.

Intramural sports arouse keen competition at the School of Mines, and a large part of the student body participates. The enlarged intramural program now includes ten sports: touch football, basketball, boxing, wrestling, swimming, volleyball, golf, tennis, softball and horseshoes. Of these, the football and softball teams are divided into two leagues and the winners of each league play for the championship. The remainder of the sports, with the exception of golf, are run off in elimination tournaments. In golf, however, an 18 hole medal play tournament decides the winner.

To provide an incentive for contestants, a traveling trophy is provided for the organization totaling the greatest number of points in intramurals during the year. Points are awarded on the basis of team standing in each sport. Separate trophies are awarded in a number of sports.

By permitting one team to enter from each social fraternity and one from each class in the Independent group, every student in the school has an opportunity to compete. The different sports are spread out over the year in such a manner as to present a well rounded program.

The following are the winners and runnersup in the different events.

Touch Football:

First Sophomores; Second, Pi Kappa Alpha.

Basketball:

First, Sigma Nu; Second, Pi Kappa Alpha.

Boxing:

Juniors and Sophomores tied.

Individual Winners: 112 lb.—Boyt, Juniors; 118 lb.—Gottschaulk, Soph.; 128 lb.—Boutin, Seniors; 135 lb.—Winkle, Juniors; 145 lb.—Nevin, Soph.; 155 lb.—tie: Ridley, Pi K A. and Eads, Frosh.; 165 lb.—Bouchier, Juniors; 175 lb.—Domjanovich, Juniors; Heavyweight—Kromka, Soph.

Wrestling:

First, Sophomores; Second, Lambda Chi Alpha.

Individual Winners: 118 lb.—Leslie, Lambda Chi; 128 lb.—Fort, Lambda Chi; 135 lb.—tie: Burgess, Seniors, and Brown, Soph.; 145 lb.—Rose, Soph.; 155 lb.—Vogelsang, Soph.; 165 lb.—tie: Veale, Soph., and Kiburz, Frosh.; 175 lb.—Rogers, Juniors; Heavyweight—Kane, Frosh.

Grunt and groan artists. Winners of their respective classes.

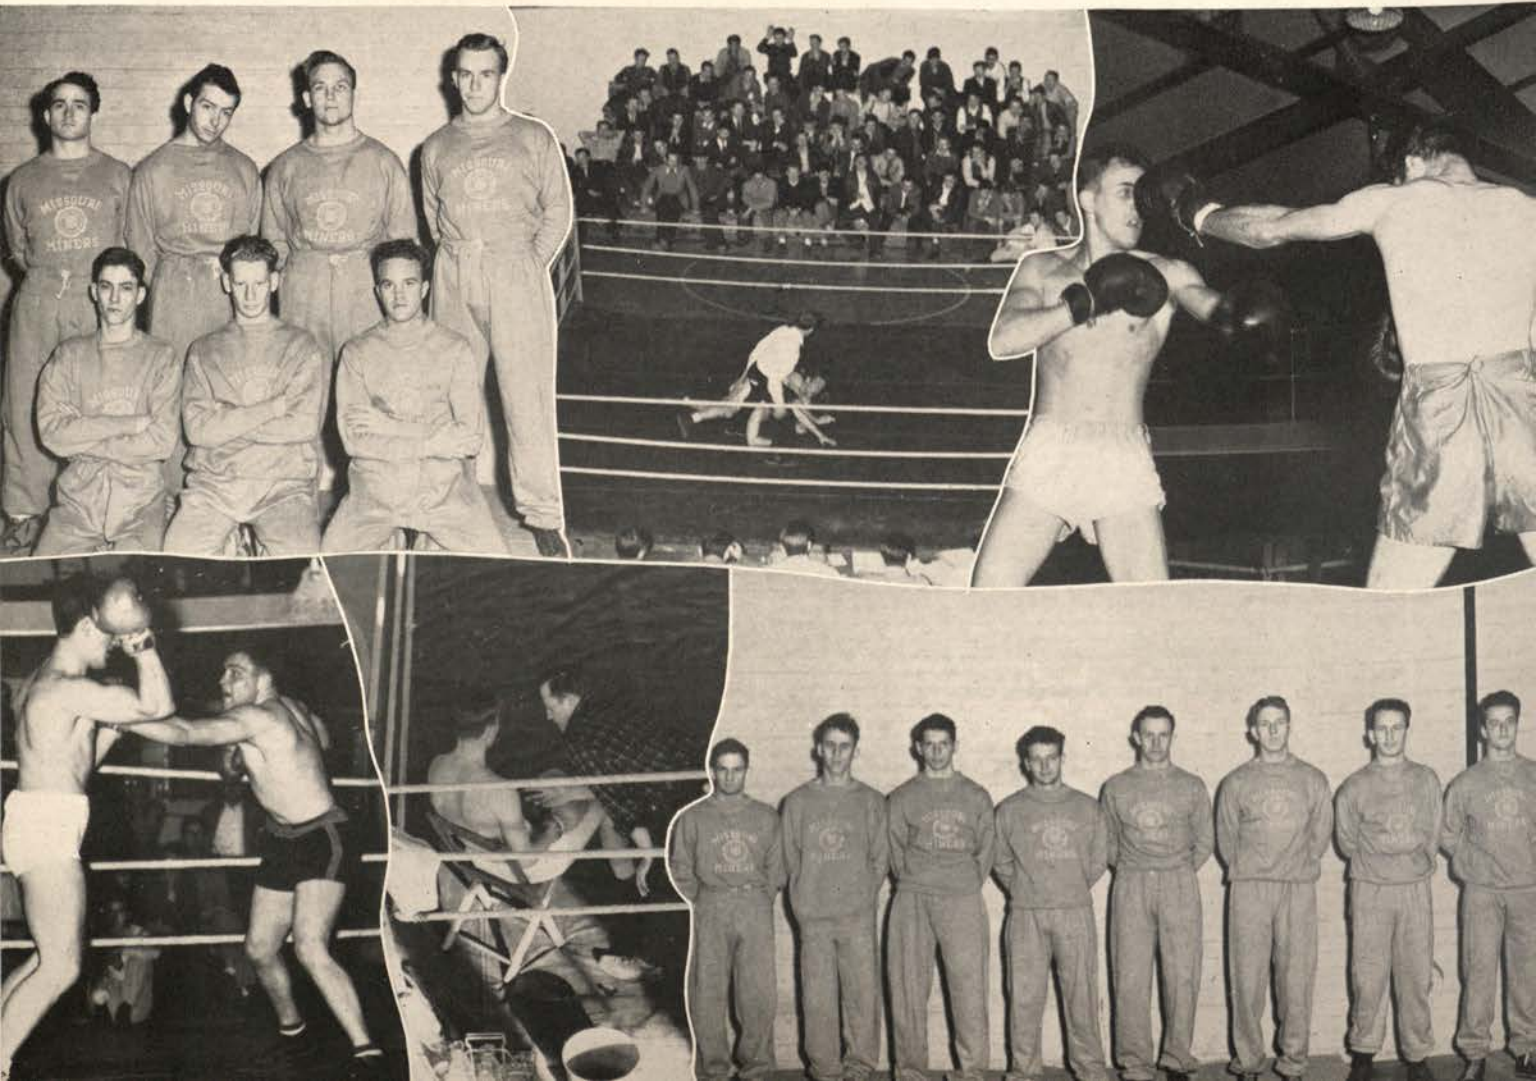

Action on the mat.

Winkle gets close to a Warrensburg glove.

Hammann and Kromka fight it out for the heavyweight title.

"They can't hurt us," says Andresen.

Champeens in their boxing divisions. What! no cauliflower ears?

Frosh line up against the
Sophs for their annual feud.

Swimming:

First. Freshmen; Second. Sophomores.

Individual Winners: Medley Relay—Frosh.; 160 yd. Relay

—Frosh.; 60 yd. Back stroke—Hadley, Soph.; 60 yd.

Breast stroke—Neumeyer, Frosh.; 60 yd. Free style—

Bracket, Kappa Sigma; Diving—Winkle, Juniors.

Volleyball:

First. Juniors; Second, Sigma Nu.

Golf:

First, Pi Kappa Alpha; Second, Juniors; Low Score, Hartman, Triangle.

Tennis:

First, Henderson, Alpha Lambda Tau; Second, Hedell, Juniors.

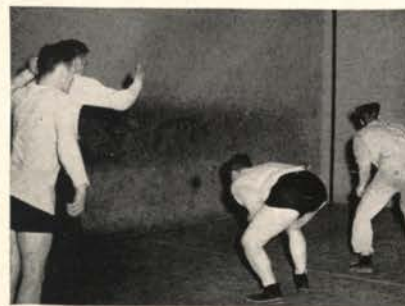

Horseshoes:

Singles: First, Gund, Pi Kappa Alpha; Second Krill, Juniors.

Doubles: First, Juniors; Second, Kappa Sigma.

Softball:

Tournament not complete as Rollamo goes to press.

Can this be handball?

BOOK THREE

Campus activities interest the student in the social life of which he will be an integral part in later years. Life-long friendships, personalities, and a spirit of cooperation are created; and many happy hours are spent relaxing from the arduous educational program to which he must adhere the greater part of his time.

Membership in the various organizations is primarily up to the student, and it is possible for him to enjoy membership in several of these groups.

The outside activities at M. S. M. are many, and the student will find among them at least one in which he will wish to participate.

Phi Kappa Phi is an honor society composed of students and professors in all branches of the institutions at which its chapters are located. Student members are elected from the upper ten percent of the graduating class and those graduate students whose scholarship merits award are elected to the society.

Scholarship and character are stressed and the society holds to the original purposes of educational institutions. A student's achievement in an institution is recognized by election into this society. The motto of the society is, "The love of learning rules the world."

The society also presents to each member of the upper ten percent of each class, a bookplate bearing the society's seal.

Tau Beta Pi was founded at Lehigh University in 1885. The Beta Chapter of Missouri was founded at the Missouri School of Mines in December, 1906.

Since its founding on the M. S. M. campus Tau Beta Pi has risen to become the highest ranking honor engineering fraternity in the country. Along with scholarship, character, leadership, social qualities and personal appearance are factors considered in selecting men for membership.

Established primarily as an honorary service fraternity, the Missouri School of Mines Chapter of the National Blue Key Honor Fraternity selects its membership from those of the Junior and Senior classes who have shown outstanding qualities of leadership and a willingness to work toward the betterment of the school.

Since its formation on the School of Mines campus in 1933, the fraternity has assumed and carried out a number of campus programs of benefit. Among these are the publication of the student directory, the publication of the football programs, and the encouragement of high standards of leadership and scholarship by awarding shingles to outstanding members of the freshman class.

Since its founding at the University of Virginia in 1902, Alpha Chi Sigma has since served its purpose to raise the standard of chemistry both as a profession and a science. In addition, the fraternity aims to aid its members in pursuing their chosen professions and bind them together with lasting ties of friendship.

Activities throughout the year include talks by the students on their research work and topics of interest to the chemical profession.

Theta Tau, a national professional engineering fraternity was founded on October 5, 1904, at the University of Minnesota. Iota, the eighth chapter of the twenty-three composing the fraternity, was founded at The Missouri School of Mines on February 5, 1916.

Membership in Theta Tau is open only to undergraduate students who are enrolled in approved engineering courses. Scholarship is not one of the requirements for membership in this fraternity, but members are chosen because they show promising engineering ability.

The ideals of Theta Tau are to promote and maintain the high standards of professional interest that have long governed the fraternity.

The most recent addition to the School of Mines Campus Organizations, Beta Omicron Chapter of Alpha Phi Omega, National service fraternity, was formed in the spring of 1939. Dedicated to the service of both school and community, Alpha Phi Omega accepts as members any students who have at any time received training with boy scout organizations.

In keeping with the purposes of its national organization founded at Lafayette University in 1925, the fraternity aims to assemble college men in the fellowship of the Scout Oath and Law, to develop friendship, and to promote service to humanity.

Outstanding services performed by the organization last year were the making of a student housing survey, the sponsorship of mass finger-printing of the student body, and the promotion of community programs among local scout troops.

The Society of American Military Engineers had its inception in the World War. Its purposes are to further national defense, link civilian and military engineers more closely, and of procuring, preserving, perpetuating, and disseminating knowledge and information relating to engineering operations.

The Post at the Missouri School of Mines was established in 1938, replacing the Officers' Club. It is the purpose of this post to further the interests of the Society and to sponsor the Military Ball.

In 1937 the local Orten Society, comprising the students in Ceramic Engineering, became the M.S.M. Student Branch of the American Society of Ceramic Engineers. The organization sponsors meetings at which motion pictures descriptive of the Ceramic Industry are shown and interesting talks are made by prominent men of the field. Its purpose is to bring the members of the curriculum into a closer bond of fellowship and to bring others interested in the industry in closer contact with it.

American Institute of Chemical Engineers

The Missouri School of Mines chapter of the American Institute of Chemical Engineers, formerly the Ira Remsen Society, was granted a charter in March, 1939.

The object of the society is to stimulate interest in chemical engineering and to extend the knowledge of the members by having men of industrial importance address the society at its semi-monthly meetings.

Anyone who is interested in current chemical engineering problems may belong.

The student branch of the American Institute of Electrical Engineers was organized on the M. S. M. campus in March, 1925.

The local chapter has grown steadily in the past 15 years and is now open for membership to any Sophomore, Junior, or Senior taking Electrical Engineering.

The student organization presents a series of well planned programs of talks and discussions at its meetings throughout the year. These programs are arranged primarily for the purpose of providing the members with an opportunity for the development of qualities of self-expression and leadership.

The officers of this year's student branch of the A. I. E. E. are: Chairman, Ruble Burns; Vice-Chairman, Leslie Payne; Secretary, Daniel Lynch; Treasurer, Alvin N. Reagan. Dr. J. Stuart Johnson is faculty adviser for the organization.

The student branch of the American Institute of Mining and Metallurgical Engineers was established to unite the members of the mining and metallurgy departments in order that they might discuss current problems pertaining to their field.

This is accomplished by bringing prominent speakers from the various fields before the group and by student talks on their summer positions and experiences. Valuable information is also obtained from the national society through the medium of their monthly journal.

The American Society of Civil Engineers of the Missouri School of Mines was organized with the aid of Professor J. B. Butler in 1923.

The purpose of the Society is to afford a means by which the Civil Engineering students will be able to acquire a knowledge of their field work from sources other than the class room. Membership is open to Sophomores, Juniors, and Seniors enrolled in Civil Engineering.

The local branch of the American Society of Mechanical Engineers was founded in the spring of 1930 by Dr. Aaron J. Miles.

The purpose of the association is to promote the art and science of mechanical engineering by acquainting the members with the practical and theoretical sides of engineering.

Members are offered valuable experience in expressing themselves on technical topics by presentation of technical papers.

Throughout the year, several speakers and alumni have appeared before the group and presented interesting talks on different aspects of the mechanical engineering field.

The Student Council

The Student Council of the Missouri School of Mines was founded in 1937, its primary purpose being to provide a means of contact between the student body and the faculty.

The Council consists of nine fraternity men—one from each fraternity—and nine Independents. Members are elected each spring by their respective organizations.

Regular meetings are held each month and special meetings are called when the occasion demands.

The Rollamo Board

The ROLLAMO BOARD is composed of students from every branch of Miner Life, and for this reason the ROLLAMO is able to present a true cross section of campus life. In the spring the members are chosen who will edit the book for the following year and a plan is draw up whereby a true representation of student life will be recorded. If emphasis is placed on any particular group it is the Seniors because of their natural tendency towards campus leadership. It is our hope that you will enjoy this, the 1940 Rollamo, as much now as in the years to come.

The Missouri Miner

The Missouri Miner is a weekly publication whose aim is the complete coverage of all campus news and events that are of interest to the students and to the faculty. Accounts of sports events, student organization activities, social events and faculty news are regularly published. The paper is edited and distributed by a group of students who are selected on the basis of their dependability and ability to do the various jobs for which they try out. Selection of new members is made by the board in an election in the spring of the year. Membership on the board is considered to be a very worthwhile achievement.

Rollamo Co-Eds

In 1939 the co-eds of M. S. M. organized for the first time in the history of the school. They were under the guidance of Mrs. W. T. Schrenk, Dean of Women, and present faculty advisor for the Co-ed Club.

Business meetings are held regularly and social gatherings are given at the homes of different girls. An important feature of the club is a rifle team in which the girls take an active interest.

Independents

The non-fraternity men formed an organization in 1935 known as the "Independents". The object as outlined in the constitution is to enable non-fraternity men to participate more fully in the social, athletic, and other activities on the campus.

All non-fraternity men are eligible and become members upon payment of their annual dues.

The Independents sponsor two dances each year to which all students are invited. Many of the social and political leaders on the campus may be found among its ranks.

The Shamrock Club

March, 1938 a group of students at the Missouri School of Mines, feeling the need for more economical board, organized what was then known as the "Forum", the name later being changed to the "Shamrock Club."

The purposes of the organization are to provide a high standard of living for its members at a minimum cost and to promote interest in school activities and in school work. Members are selected by the board of control on the basis of their need for keeping educational expenses at a minimum, and their personality.

The Varsity Orchestra

The present Varsity Orchestra was organized three years ago and has since functioned as a cooperative organization. This year the band has developed into a full swing combination with several talented soloists. The orchestra is now very popular with the students, and has provided many enjoyable evenings of music during the year. It furnishes the accepted swing music for the school and fraternity dances.

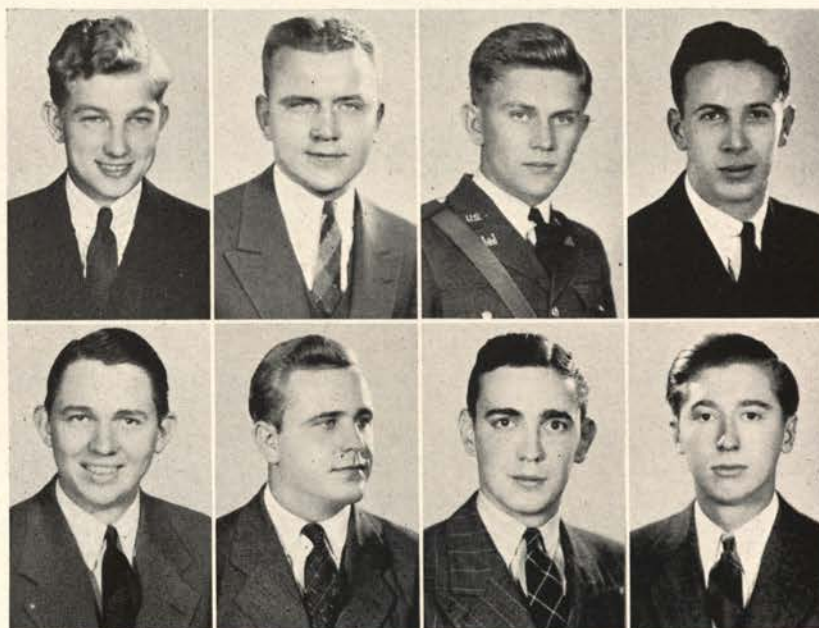

The rhythm section gives a solid gackground and a dependable nucleus upon which the band is built. Abe Johnson, the drummer, pounds out a steady beat as he starts the band. Each one of Abe's beats is matched by the full tone of Seb Hertling's bull fiddle. Eric Casey and Hank Groover groove along on piano and guitar respectively.

The brass section is led by Nelson GaNun on first trumpet. Kenny Meyers and Jerry Higley share the hot choruses when not filling in on harmony. The smooth trombone solos which are pleasing to everyone are played by Chuck Faulkner. These four fellows mask the rhythm background with a unified, brass kick.

A fine sax section adds the final refined touch to the band. The section is composed of James Katz and Mac Stewart on altos, Johnny Ritchie on tenor, and Bob Smith on "go" horn. Bob Smith selects the numbers which Rolf Roley sings in an easy flowing style.

Put together, these boys have developed, by hard work, into a fine, well balanced band.

Interfraternity Council

The Interfraternity Council, composed of two men from each social fraternity on the campus, has as its purpose the harmonization of the activities of the fraternities.

The council plans the social, rushing, and athletic activities of the fraternities, sponsors the Interfraternity Ball and sets the dates for the other fraternity dances.

The St. Pat's Board was established on the School of Mines campus in 1930 to govern the arrangements of the biggest social event on the M.S.M. Calendar.

The board is composed of 22 men, two from each fraternity and four from the Independents, thus providing for a ruling body representative of every social organization on the campus. They, as the board, have charge of all matters pertaining to the annual event known as St. Pats. During the past ten years, this organization has proven itself capable of doing a large amount of work and doing it well.

BOOK FOUR

Page One Hundred Thirty-five

A nonsensical review of campus life, and the methods of relaxation used by the students both in and out of the classrooms.

A calendar report of fun on the campus etc., all infused with a disparaging display of humor in its lowest form.

FEATURES

St. Pats

A really gala occasion

Of all the rousing stories formed from folk tales and legend, none is more soul inspiring, more emblematic and more fitting to the engineer than that concerning St. Patrick. Ever since this great man flunked his Calculus and failed to raise the necessary number of grade points for graduation, he has been the idol of every hard working engineer. He performed many deeds of engineering skill until today he is recognized by all as the Patron Saint of Engineers.

Each year, in memory of St. Pat, several days are set aside when the Miners discard their books, and studies are temporarily forgotten as customary merry making and the cordial greeting of friends reign o'er the campus.

Enter—St. Pat and Co.

Intermission.

Throw out that rowdy.

Take off your hat, Joe.

St. Pat Goes to a Party

Came the morning of Thursday, the fourteenth of March, and the Miners looked forward to the three days of the thirty-third annual St. Pat's Celebration. Hundreds of beautiful young ladies from Rolla and scattered parts of the country were present to help the Engineers enjoy the occasion.

The Independent organization inaugurated the festivities Thursday evening at Jackling Gymnasium with an informal dance from 9 to 12:30. Music for the dance was furnished by MSM's own Varsity Orchestra.

The Interfraternity Council continued the dancing with Charlie Armstead and his orchestra which played into the twilight hours.

After a few welcome hours of sleep the Miners and their guests were found at the Rolla depot waiting for the Engineer's Patron Saint, St. Patrick. He arrived at 1:30 on the traditional handcar, and boarding his carriage he led a parade of floats entered by the various fraternities and the Independents. The Pi Kappa Alpha Fraternity's float depicting St. Patrick driving the snakes from Ireland, nosed out the other entries to take home the large trophy.

The parade terminated at the auditorium where St. Pat delivered his annual speech to a large assembly and knighted each member of the graduating class as Knight to St. Patrick.

The retiring Queen, Mary McGrae, escorted by the St. Pat Board Pres.

THE CORONATION

Royalty Is Crowned

The St. Pat's Board took over the celebration Friday night presenting Bob Zurke, the Tom Cat of the keys, at the colorful Masquerade Ball. At 11:45 St. Pat's went on the air over station KMOX with Harry Flannery describing the picturesque proceedings and surroundings. Shortly after the beginning of the broadcast, the music stopped as everyone knelt to pay homage to St. Pat who, in his flowing robes, was escorted into the hall by his guards and pages. The beautiful Maids of Honor for the fraternities and Independents were presented to the patron saint and then lovely Miss Rosemary Sue Grumpler made her entrance amid the applause of admiring spectators to take her place beside St. Pat as his 1940 Queen of Love and Beauty. Fifteen minutes of Zurke's Delta Rythm completed the broadcast and the festivities continued into the early hours of the morning.

Saturday afternoon the Sigma Nu Fraternity entertained at their house with a Tea Dance which was enjoyed by the many couples who attended.

After formal dinners and parties at many of the fraternity houses the celebration proceeded once more to Jackling Gymnasium for a final night of merry making with Bob Zurke and his Orchestra again holding sway. The occasion was the spectacular Formal Ball with gay formals, tuxedos and tails setting the style for the evening. Early Sunday morning the final strains of "Southern Exposure" marked the end of another gala St. Pat's at the Missouri School of Mines.

We're In The Red!

Yes, we're definitely in the Red and undoubtedly you've sensed that fact by this time. We certainly hope that our effort to paint the ROLLAMO with a little Scarlet meets with your approval. Throughout the year we often wondered if we weren't actually going to be in the Red, from the admonitions of the Business Manager, when he roared from across his desk, "It costs too much!" We hope we'll be in the Black.

We, the 1940 Rollamo Board, wish to extend our thanks and appreciation to Mr. Bruce Cowan and Mr. Owen Marsh of Pontiac Engraving Co.; to Mr. J. C. Carpenter (now deceased) and Mr. W. R. Schutze of Carpenter Press; to Cy Swatek of Kingsport Press; and to Roland Holl, photographer for Sid Whiting, for the generous assistance they have given us in editing and publishing this book.

Photographs for this book were taken by R. P. Roepke, C. S. Weber, and H. L. Wilder.

Now it's time to say, "We hope you like our ROLLAMO!"

Sincerely

Powell Dennie
